

Erica,

We would like to express our sincere thanks to you for all of your efforts in helping us purchase our home in Lighthouse Point. We are well aware of the extra effort required on your part to make this deal a reality. With us being some 1,000 miles away, with the delays in selling our home in Kentucky, and with the usual and unusual details that arise when buying any real property, this was a reasonably complicated transaction. You consistently provided a calming influence, were always punctual in delivering accurate information, and readily available day or night.

In addition to handling the normal negotiations associated with real estate transactions, you proved to be an invaluable resource by providing us with several reliable choices in skilled workers, cleaning crews, lawn service, and even a veterinarian and pet setting service!

Perhaps even more impressive is the fact that you took time on a Sunday afternoon to visit us with a welcome gift and a smile after we had moved in, proving to us that we were more than just customers, we were part of the community.

Thanks again for everything, it is great to finally be your neighbor.

Gary and Marty Johnson
